MEIJIA acrylic classic waterproof protective case Details

MEIJIA acrylic classic waterproof protective case provides not only solid and full sides protection, but also smooth user experience from an ergonomic point of view.

Sturdy packaging provides solid protection for the contents. The box body of MEIJIA acrylic classic waterproof protective case is made of high-impact and solid engineering materials, which are integrally injection-molded, shock-resistant, pressure-resistant and fall-resistant. It provided effective protection for the equipments inside.

R angle

The edge of the box mouth is designed with an inverted R angle, which is beautiful and smooth, so that you will not be accidentally injured by the angle.

#### The Security Keyhole

Anti-shear and anti-pry, and can be locked to ensure the safety of the equipments in the box. Beautiful and functional injection molded, durable use with the solide construction, and was reinforced by the stainless steel.

#### Easy To Open With Latches Design

Smarter and easier to open than traditional cases. Start the release and offers plenty of leverage to open with a light pull in just seconds.

#### High Quality Auto Exhaust Valve

Solve the problem that the box can not be opened or deformation due to the difference of internal and external air pressure and keep water molecules out.

#### Portable Handle Design

Easy to go with our portable handle design. Ergonomic structure design to ensure beauty and comfort. Durable use with the solide construction.

#### Customisable Foam Inserted

Use the convoluted foam for cover, and according to the size of your valuables, configure the interior pre-cut pull and pluck cubic foam to fit and keep the valuables from shocks and bumps on the road.
